

Strategy Overview

Eagle believes that investments in high quality, growth-oriented global, large-capitalization companies provide investors with attractive long term, risk-adjusted returns. The strategy targets global companies that generate consistent earnings, cash flows and returns on equity as well as those with strong management teams that reward patient investors with above market returns while limiting risk over the long term. Eagle's disciplined investment process incorporates both top-down and bottom-up elements and is designed to identify companies with improving growth prospects that have not been incorporated into current valuations.

Eagle Global Advisors, LLC

- SEC Registered Investment Advisor, founded November 1996
- \$3.7 Billion assets under management*

* Benchmark: MSCI World.

EGA Global Equity Composite - The EGA Global Equity Composite consists of those equity-only portfolios invested in both US equities and international equity ADRs and/or ordinaries. The Eagle equity investment philosophy focuses on identifying the securities of large capitalization companies with improving growth potential that are not fully recognized by current valuations.

•Eagle Global Advisors, LLC is an independent investment advisor, registered with the SEC, actively managing individual investment portfolios containing domestic equity, international equity, master limited partnerships, and domestic fixed income securities, (either directly or through a sub-advisory relationship), for mutual funds, high net worth individuals, retirement plans for corporations and unions, financial institutions, trusts, endowments and foundations.

•Eagle Global Advisors, LLC claims compliance with Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with GIPS standards. Eagle Global Advisors, LLC has been independently verified for the periods 1/1/1997 to 12/31/2017 by Dabney Investment Consulting Associates, Inc. The verification reports are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation. Annual returns are reported for all full years and interim quarterly returns. Returns of portfolios and composites for periods of greater than 1 year are annualized. Only direct trading expenses are deducted when presenting gross of fee returns. In addition to management fees, actual client returns will be reduced by any other expenses related to the management of an account such as brokerage charges, trustee fees or custodian fees. The currency used to express performance is the U.S. dollar. Returns are calculated net of both non-reclaimable and reclaimable foreign withholding taxes on dividends, interest, and capital gains. Reclaimable withholding taxes are not accrued, but are cash basis as received. Eagle uses calendar month-end portfolio valuations or valuations on the last business day of the month. Eagle uses the asset-weighted standard deviation as the measure of composite dispersion of the individual component portfolio gross full period returns around the aggregate composite mean gross return. If the composite contains 5 portfolios or less (<=5) for the full period, a measure of dispersion is shown as not meaningful (N/A) and the number of portfolios is not reported. Past performance cannot guarantee comparable future results. All investments involve risk including the loss of principal. This presentation is presented in a private and confidential nature, and is intended for clients who are financially sophisticated.

•The composite start date is January 1, 2007. The composite was created in January 2007. The composite includes all global equity portfolios where the firm has full investment discretion, the client pays a fee, the portfolio has over \$250,000 in global securities and the portfolio properly represented the intended strategy at the end of the calendar quarter. Portfolios smaller than the minimum are deemed incapable of sufficiently diversifying into this investment style and are excluded from the composite as being not fully discretionary. All performance returns assume the reinvestment of dividends, interest, and capital gains.

•The benchmark is the MSCI World Index, a free float-adjusted market capitalization index that is designed to measure the equity market performance of developed markets. Indexes are U.S.-based and gross of tax. The total return for the benchmark (or benchmarks) that reflects the investment strategy represented by the composite is reported for each period.

•The Eagle list of composite descriptions is available upon request. Eagle policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request. Eagle believes that all significant events that would help a prospective client interpret the compliant presentation are disclosed in the compliant presentation and in the firm's SEC Form ADV Brochure 2A.

Global Equity Fee Schedule (minimum annual fee: \$10,000)

| Account Size | Under \$5 million | \$5 to 10 million | \$10 to 25 million | \$25 to 50 million | \$50 to 100 million | Over \$100 million |
|--------------|-------------------|-------------------|--------------------|--------------------|---------------------|--------------------|
| Annual Fee | 1.00% | 0.90% | 0.85% | 0.80% | 0.70% | Negotiable |

Representative Example of Compounded Effect of Investment Advisory Fee

| A maximum 1.00% management fee deducted from a portfolio quarterly (0.25%/quarter) would result in the following cumulative compound reduction of the portfolio time-weighted rate of return. | Years | Cumulative Fee | Years | Cumulative Fee |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|----------------|-------|----------------|
| | 1 | 1.004% | 6 | 6.176% |
| | 2 | 2.018% | 7 | 7.241% |
| | 3 | 3.042% | 8 | 8.318% |
| | 4 | 4.076% | 9 | 9.405% |
| | 5 | 4.121% | 10 | 10.503% |
